M M NAYAK, I.A.S. Spl. Commissioner Collegiate Education

A.N.R. Towers, Jammi Chettu Street, Prasadampadu, Vijayawada - 521 108 E-mail : peshi.cce@gmail.com

Web : www.apcce.gov.in

Dear Principals,

Sub: Academic Activities in Colleges - Enrichment of quality, performance - Reg.

Tamosama jyothirgamaya! I wish all the colleges a safe and secure Academic Year 2020 - 21. This Academic Year started with several challenges for our education system. The Colleges, teaching, and non-teaching has a boundless task in strengthening our students not only in their academics but also focus on their employment prospects. It is the need of the hour to rededicate ourselves for the cause of moulding students into finest citizens. In this delayed Academic Year, with challenges and choices, lets fortify our pledge to work for the welfare of our colleges & students.

It is said that "do not follow where the path may lead. Go instead where there is no path and leave a trail." Each college is exceptional with latent gifts in diverse fields. Lead your team to new heights with innovative approaches, inspiring confidence, and instilling faith among staff and students. The accomplishment of any institute depends on its leader's ability to discover and coordinate the competencies of his/her team. The assets are to be recognized and honed to inspire & benefit students.

I interacted & reviewed on various activities for enhancement of standards in colleges through circulars, video conferences, special live teleconferences & and once again I reiterate that all activities shall be implemented in colleges.

Hygiene & Cleanliness:

Cleanliness is Godliness. It is our responsibility to create congenial and hygienic environment in colleges to help students receive good education and to keep them healthy. All colleges should sanitize the premises as per the directions of the government. The colleges shall take necessary measures to keep the college and its surroundings clean and healthy and provide basic facilities like drinking water and sanitation to students. Surprise inspections will be conducted at any time to check the cleanliness and maintenance of colleges.

45/134

Training Programmes:

Knowledge is power. To inspire and broaden horizons, teachers of all subjects underwent one-week Faculty Development Program. A total of 14 Faculty Development Programs were conducted, covering all domains, including technology enabled classroom teaching methods, in a span of four months i.e., June to September. The objective behind this exercise is that the acquired knowledge should percolate to students at our colleges.

Online Classes:

Due to pandemic situation on the globe, the education system has faced a new test of facilitating students with right curriculum without any apprehensions for their careers. On the clarion call given by UGC, our teachers have responded enthusiastically with overwhelming online classes for the benefit of student community. All the content developed by teachers are placed on our department website, giving open access to all whoever wants to gain knowledge. I congratulate every teacher who wholeheartedly came forward to share their knowledge through various online platforms. I expect this attitude to sustain for coming Academic Years too, and I firmly & sincerely believe that a teacher is a harbinger for a healthy and prosperous nation.

Learning Management System:

There is no alternative to a good and learned teacher. Student desires to hear an exceptional teacher. By giving training on using various platforms, teachers were trained on presentation skills to prepare good content on the syllabi. To capture and deliver, the department has started its own Learning Management System portal giving access to all the students with login credentials. Along with classes, material, online assessment – quiz, short questions etc., are kept as associations in the portal. One of the fruits of ICT revolution is the long and effective reach of communication media. The systematic use of LMS will bring its vast potential to the fore. Its multifaceted value can be realized with the active student participation and interaction. I request you to use the resource to the maximum extent.

Digital & Virtual Classrooms:

Colleges are equipped with pioneering modern teaching tools and equipment. Digital and virtual classrooms will make education interesting, dynamic, innovative, and thoroughly inspiring. All the equipment should be used properly and effectively. DRCs can make best use of these by supplementing classes where there is scarcity of teachers for certain subjects.

Biometric - Attendance & Results:

Attendance and results are interdependent. Colleges are for students and the robust functioning of the institution reflects in their full attendance in classes. To reap the benefits teaching learning and also from government schemes like Jagananna Vidya Devena, Jagananna Vasathi Devena and others, student must put up good attendance. It is the responsibility of the colleges to motivate students to attend classes regularly.

The results shall be improved by conducting Result Analysis at the beginning, conducting internal examinations, counseling the students, monitoring progression, remedial coaching, talking to the parents, discussing examination models, making question banks available etc. Unfortunately, the university examination results are not encouraging in some subjects and are cause for serious concern. Based on subject-wise and teacher-wise result analysis, appropriate action will be initiated against the teachers who fail to discharge their responsibilities.

Quality Assurance:

Quality education is the motto of the department. A good academic institute should get recognition from students, alumni, and society. Apart from them, the college must secure good ranking through NAAC. All colleges due for NAAC assessment should submit Lol, AQAR to NAAC on time and submit SSR through online as per the new norms. I wish many more colleges to get "A" grade by improving the performance of the college.

National Institute Ranking Framework:

The framework outlines a methodology to rank institutions across the country. The methodology draws from the overall recommendations broad understanding arrived at by a Core Committee set up by MHRD, to identify the broad parameters for ranking various universities and institutions. In the last Academic Years, Andhra Loyola College, Vijayawada, Govt. College (A), Rajahmundry, Silver Jubilee College, Kurnool, , SRR & CVR Govt. College (A), Vijayawada and Dr. V. S. Krishna College (A), Visakhapatnam were placed in the rankings. There are good number of colleges which can fetch rank and I desire that more colleges should be placed at national level rankings.

ISO Certification:

The ISO refers to International Standards Organization is an independent, standard non-governmental body that comprises of representatives of national standard organizations of 164 member countries. This organization provides a certification for the quality management systems of the various facets of the institute. The ISO certification elevates the quality of the institution, increases the credit of the institution, and satisfies the stakeholders. All Principals should maintain the best status and improve the amenities in colleges.

lawahar knowledge Centers:

Jawahar Knowledge Centers are helping students in securing employability skills and placements. JKC has emerged as broad-based Career Guidance Centre (CGC) and has spread its reach to all the students. Lecturers trained on various platforms must give all their efforts in imparting productive training & skills to students Colleges should ensure that the benefits of courses from Spoken Tutorial, Cisco, TCS etc., should reach all students. JKC should instill confidence in students that training will facilitate and enhance the chance of getting placed in the campus drives. Regular training programs on emplyable skills and inviting companies to campus and organize placement drives should be a practice with periodical intervals in between batches.

Management Information system:

Management Information System (MIS) is a system that manages the entire data/information of any organisation and provides right information at the right time to facilitate managerial decision making, it enhances the quality of management and growth of the organisation by providing timely, accurate and meaningful information for planning, organisation and control. The central objective of MIS is to provide information so that instant decisions can be taken avoiding delay.

Department has initiated Management Information System, designed, and developed by the Academic Cell. This portal facilitates as one-stop-shop for most of the data concerning the department. Data of Government Degree Colleges and Aided Degree Colleges must be uploaded in the portal.

Infrastructure Development:

The department is allocating budgetary grants to colleges for construction of classrooms, procurement of equipment and to meet other necessary requirements. Colleges are encouraged to apply and utilize financial assistance from various sources like UGC, DST, DRT, NAAC, APSCHE, alumni and philanthropist in the region.

Under the State Government's prestigious program, 'Nadu-Nedu', the department has submitted the proposals which will uplift the appearance and ambience in colleges. Most of the colleges has good infrastructure through RUSA 1.0 and RUSA 2.0 funding to cater the needs of the students. I insist on the colleges to take all necessary measures to utilize the allocated budget within the given time and also to utilize resources like laboratories (JKC labs, ELL labs, Computer labs etc.,), library, sports facilities, equipment and other resources available in the colleges to the optimum extent for the benefit of students.

District Resource Centers (DRC):

DRCs are established in 13 identified colleges one in each district interconnecting all Government Colleges. The resources and expertise in the district are pooled and shared for the benefit of the students and staff. A platform to conduct programmes, like trainings, seminars, workshops, lectures, etc. and the resources need to be used by all colleges innovatively and extensively. It is the high time to share the scarce resources among the colleges for the larger interests of students through this platform.

District Collegiate Education Development & Review Committee (DCEDRC):

DCEDRC is constituted to coordinate all departments in the district with District Collector as Chairman and Identified College Principal as Convener and all GDCs Principals and district officials as members. The initiations made in the committee meetings shall facilitate the students in availing the better infrastructure & quality education.

Academic Calendar 2020 - 21:

Desired objectives and goals shall be achieved only through systematic planning. "Failing to prepare is preparing to fail". To facilitate efficient functioning of colleges, an Annual Academic Calendar for the Year 2020-21 is planned by the department, however due to pandemic, a rescheduling has been made to meet the exigencies of the situation. The colleges as per the revised calendar shall prepare an action plan related to academic, administrative, and financial matters.

Academic Audit:

To improve the functional efficiency of Colleges, observe the conduct of academic activities, promote accountability and professional competency of the staff. Academic Audit is initiated at lecturer and institutional level covering all aspects of the institution like curricular, co-curricular and extra-curricular activities. The Audit report provides scope to improve the performance of the college and all colleges should take necessary measures and send compliance report to the department.

Academic Formats:

Academic Formats on institutional plan, curricular plans, college activities, teaching notes, teaching diary, student progression and remedial coaching etc. have been redesigned and to evolve uniform maintenance of records of all activities in Degree colleges. Recording activities annually and documentation with all evidences is vital for NIRF, AISHE, and NAAC assessment.

Academic Repository:

Information on academics and college activities shall be placed on the link Academic Repository in CCE website, includes PPTs, Video Links, Lesson Plans, College Monthly Newsletter, Best Practices and other distinctive features

Women Empowerment Cell:

Women Empowerment Cell (WEC) was established in all Degree colleges of AP. The empowerment of women is vital and increases their ability to influence changes and contribute to a better society. WEC ensures attendance of girl students in the college regularly and focuses on health care, women related issues, access to Higher Studies and employability skills for girl students.

Further on, preparing colleges for Autonomy, Colleges for Potential Excellence (CPE) need to be strengthened. I would like to see considerable improvement periodically from now onwards. There is no scope for lackadaisical attitude in this regard at any level.

I wish you all the best in all your endeavors.

Verning at Degree College KANIG RI-523 230 Prakesam Dist. Proceedings of the Commissioner, Collegiate Education Andhra Pradesh :: Vijavawada

Present : Dr. Pola Bhaskar, IAS

Rc.No. 003/Academic Cell/AC-10/2022

Date: 6-4'22

Sub: Collegiate Education -Implementation of Continuous Internal Assessment (CIA) -

Standard Operating Procedure (SOP) to be followed by all colleges - Reg.

Ref:1. Outcome of the workshop held on Implementation of Continuous Internal Assessment

(CIA) and Evaluation in Government Degree Colleges at SRR&CVR Government

College (A), Vijayawada on 30.12.2021

In general sense both Assessment and Evaluation are considered synonymous. But actually, both have different meanings. Assessment is the feedback from student to teacher and Evaluation is feedback from teacher to student. It involves the use of empirical data on student learning to refine programs and improve student learning. It's a judgment on student's performance, which includes both tangible and intangible aspects. Assessment is the use of empirical data on student learning to refine programs and improve teaching and student learning. As learning styles differs from student to student, the teacher needs to be more cautious while assessing the students.

Need for the Assessment:

Continuous Assessment is a critical step in the learning process. It determines whether learning objectives of the course/programme have been met. A learning objective is the expectation about what students should know or be able to do by the time a lesson is completed. Assessment affects many facets of education, including student grades, placement, and advancement as well as curriculum, instructional needs, and funding. The following points highlight the significance of assessment in the learning process.

- Capturing student's time and attention
- Generating appropriate student learning activity
- Providing timely feedback which students pay attention to
- Helping students to internalize the disciplines standards and notion of equality.
- Generating marks or grades which distinguish between students or enable pass/fail decisions to be made.
- Providing evidence for others outside the course to enable to judge the appropriateness of standards of the course.

Types of Assessment:

In the past only observation by the teacher was the main mode of assessment. In the process of development of the system and skills, there occurred various types of assessment. Broadly they can be classified as 'Formative Assessment' and 'Summative Assessment'.

Formative Assessment:

Formative assessment is continuous and is conducted during the teachinglearning process using a variety of tools and strategies. The purpose of formative assessment is to monitor student learning and provide feedback during the teaching learning process. Here, the main role will be played by a teacher or a group of people through various transparent methods. The responsibility of evaluating the internal assessment is vested on the teacher/s who teach/es the course. Assessment will be conducted through the following strategies:

- Observation during class
- · Tasks set for home learning
- · Projects/presentations
- · Open-ended tasks
- · Performance tasks

The subject teacher prepares these assessments. Furthermore, it is continuous and does not replace exams. It is a suitable evaluation technique and tool. Also, they carry a fixed portion of marks for the assessment. Most noteworthy, it gives feedback to teachers so that they can improve their teaching. On the other hand, it gives students a chance to improve their external assessment grade by seeing internal assessment results. So, that student can improve their learning. For this, the internal grade awarded to the students in each course in a semester shall be published on the notice board at least one week before the commencement of end semester examination.

Summative Assessment:

The goal of summative assessment is to evaluate student learning at the end of an instructional unit by comparing it against some standard or benchmark. There will be University Examinations at the end of each semester for both Theory and Practical sessions. Semester End Examinations for all theory papers shall be got set/prepared by the Controller of Examinations as per existing norms and evaluation of all theory papers shall be set/prepared by the Controller of Examinations as per existing norms.

Existing system of Assessment in Govt. Degree Colleges: In the light of above discussion, it is observed that the summative assessment in Govt. Degree Colleges in Andhra Pradesh is found in Semester-end for 75/100 marks for each course. But in the case of formative assessment, it has been found that there are a number of differences/deviations in

autonomous and non-autonomous colleges due to differences from University to University in awarding Internal marks to the students. The following tables show the existing system of awarding internal marks in colleges under various university jurisdiction.

INTERNAL ASSESSMENT IN NON-AUTONOMOUS COLLEGES.

W 32	Zie	District	Affiliate d Universi ty	Mid Exam/ CEA/ CIE Marks	Gelin g. Exa strif Any	Assign morts Marks	Senior/ Quiz Field Trips: Group Discussion /Survey	Atten danc e	Project / Objectiv e Test	Visa	Testal
į.	Ī,	Stikalulare	Dr. BRAU	.00	-	.5	3	5	-	(H)	29
2	£	Vipesquent and Visakhapama	AU	15		3	1		-	*	23
9	.11	East Godavari and West Gedavari	AKNU	15	-	9	1	-	120	: 44	21
4	H	Krishna	KU	10	-	5	5	5	-	-	25

9	19	Kurnool	RE	20	-	in	10	44	-	-	30
10	IV	Assistance in	SKU	15		5		-	-	Œ	25

- It is observed that, the CIA Pattern is followed in all Autonomous and Non-Autonomous Government Degree Colleges which are affiliated to 11 Universities in the State with the pass mark being 8 out of 25 and 27 out of 75.
- In autonomous colleges, the internal marks are being awarded in the range of 30 to 50 marks.
- In case of non-autonomous colleges it is differed from University to University, however, most of the Universities have opted for 75+25 External and Internal system respectively.
- In 69 State Universities, the colleges are following 75°25 pattern and 62 Cluster Universities adopted 70+30 pattern. But, the procedure of awarding internet pattern from University to University and College to College, with huge devi 71 / 134 criteria without any commonality.

In order to understand different criteria adopted by different Colleges, a One day workshop was conducted with RJDCEs, Principals (39 in number) and Subject Experts (40 in number) to invite ideas from the Principals and Subject experts with an aim to formulate uniformity in the assessment procedures in all the Government Degree Colleges in the State of Andhra Pradesh.

The Commissioner, Collegiate Education invited the Principals and Subject Experts to present their existing awarding criteria in the workshop and after the submission of Principals and Subject Experts, the CCE made the following remarks by suggesting a common pattern of Internal and External exams that needed to be followed in both Autonomous and non-Autonomous colleges in the State of AP in a uniform manner. The following Standard Operating Procedure (SOP) for Continuous Internal Assessment is prescribed.

SOF ON CONTIUOUS INTERNAL ASSESSMENT AND EVALUATION

 The following citations should be kept in view by all the faculty members with regard to Teaching, Learning and Evaluation.

"When learning and teaching continuously improves everything improves.

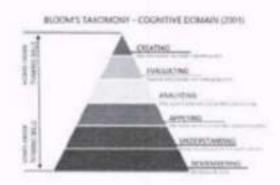

Quality is never an accident. It is always the result of intelligent effort.

Ignorance is bliss until it hits you on the face. The real education is the one
that will set you free"

---- Nelson Mandela

"The correct analogy for the mind is not vessel that needs filling; but wood that needs igniting". ----- Plutarch

- While measuring the qualitative aspect of higher education, it is essential for everyone involved in the assessment process to understand the concepts clearly. Unless the correct interpretations and benchmarking are understood by everyone, there will be ambiguity in judgments.
- 3. In a changing context, the needs and aspirations of the students have to be met through the curriculum and curricular transactions to enable them to play an effective role in the employment sectors. The thrust of the education is shifting to employability based on the changing philosophy from idealism to pragmatism.
- 4. One of the key insights into the knowledge issue is that what you know is less important than how you know it and how you apply it. It boils down to the difference between two types of thinking. Low level concrete thinking, concerns simple observations, facts and figures and is the foundation of the next level of thinking-high level abstract thinking concerns and relationships. Both kinds of thinking are necessary.
- 5. Examination reforms has been a prominent theme in the deliberations in connection with higher educationalists apparently had little impact; examinations are universally associated with anxiety and stress both for students and others. There are various malpractices that reduce the dependability and credibility of the examination system.
- 6. The academic quality of actual examination has long been a major complaint. The methodology in the system is the root cause that needs to be tackled on priority basis. The sizable weight for internal assessment is a major step. The main problem is the incomplete development and articulation of relevant and systematic schemes for internal assessment designed to suit the needs of different subjects and levels of the students.
- 7. In this regard, faculty members have not been offered sufficient support through clearly spells out SOPs specific to their subjects and effective orientation through manuals or workshops. The absence of clarity is leading students to perceive internal assessment lacking objectivity and transparency.
- Benjamin Bloom, an educational Psychologist devised a pyramid model that represents different ways of learning which is known as "Blooms Taxonomy" and is described below:

A learner is expected to progress from the lowest level of the pyramid to the highest i.e. from the Lower Order Thinking Skills (LOTS) to the Higher Order Thinking Skills (HOTS)

- There is every need for a change in focus in the internal assessment from question patterns that require simple memory recall to a judicious mix of questions which assess.
 - ✓ Knowledge acquired
 - Standard application of knowledge
 - ✓ Application of knowledge in new situations
 - ✓ Critical evaluation of knowledge
 - ✓ Ability to synthesize knowledge drawn from different sources.
- 10. Therefore, the internal assessment should be aimed towards ensuring the descriptions of the abilities and other qualities a course seeks to develop in students. In other words, from inert product to processes and capacities that point to continued learning.
- 11. The major principle for improving the quality of internal assessment is that a variety of means of assessment should be used to match many dimensions of learning objectives. The use of many such devices is possible only in the college setting of internal assessment handled directly by the individual faculty member.
- 12. Under the above circumstances, the CIA has been divided into four categories of inventory tasks and activities as detailed below:

S.No	Type of Assessment	Weightage Assigned
(i)	Assignments	5
(ii)	Project-Work/Seminar/Group Discussion/Role play/Quizzes/Presentations	5
(iii)	Cleaning, Greening and Attendance	5
(iv)	Testing of knowledge though Mid-term examinations (Mid-1 + Mid-2)	20 + 15
	TOTAL.	50

13. Assignments: A writing assignment encompasses any writing task a teacher asks of students that involves more and more thought processes including analysis, evaluation, interpretation, narration, syntheses, reflection, clarification summarization, creative expression and application or demonstration of knowledge or learning. Every faculty member should determine the purpose of the assignment and the levels of students and accordingly assignments should be given. There should be

at least one assignment for each unit/module as and when the syllabus (unit/module) is completed. The weightage of marks, assigned for the assignments should be awarded after completion of all the assignments in respect of all the units/modules and it should be finished before conduct of II Mid examination.

14. In class activities: laboratory/manipulative skill which include as described below for different subjects should be organized by every faculty member in respect of the subjects being taught by him/her

SL No	Subject	Suggested Activity/Activities for CIA
1.	Chemistry Physics Mathematics Electronics	Peer teaching, Student seminars, quiz, worksheets on subjects, KWL (Know, Want-to-know, and Learned) Group work, Work sheets on subject, Industrial visit, Individual and Group Projects
2	Zoology, Botany, Geology, Geography, Computer Science	Field visit, Student projects, Student seminars, peer teaching, filling gaps, Matching, quiz, worksheets on subjects, KWL, Hydroponic gardening, live projects, Vermi compost Preparation, growing Nursery plants, Aquarium maintenance, Fish farming
3	Micro Biology, Bio chemistry, Food & Nutrition, Home Science, Horticulture, Agriculture, Aquaculture, Home Science	Industrial visit, Lab visit, Student seminars, quiz, worksheets on subjects. KWL, Student projects. Hydroponic gardening, live projects, Vermi compost Preparation, growing Nursery plants, Aquarium maintenance, Fish farming, Mushroom Cultivation, Organic farming
4	Statistics, Economics, History, Archeology, Political Science, Public Administration	Socio economic survey, Group discussions, Student seminars, peer teaching, quiz, worksheets on subjects, KWL, Field visits, Mock Parliament, Web assignments
5	Languages	Comprehension paragraphs, Book review, Think-pair- share actions, Student seminars, peer teaching, filling gaps, quiz, worksheets on subjects, KWL, Group Discussion, LSRW activities
6	Commerce and Management	Industry visits and tours, group discussion, group projects, Student seminars, one-word answers, Multiple choice questions, peer teaching, filling gaps, Matching, quie, worksheets on subjects, KWL, Socio economic surveys

15. Students should be encouraged to participate in Activities like Clean & Green of the campus/in the community etc. Pucca record should be maintained showing the authenticity of the participation and accordingly marks should be awarded to each student. There should not be any malpractices in this regard. Attendance should also be taken into account for awarding total marks of 5. The award of marks for this should be completed before conduct of II Mid examinations.

- 16. Testing of knowledge subject-wise Mid Examinations is a very important outcome of learning, with a weightage to the extent of 70% of the total internal assessment.
- 17. Suggested to conduct Mid I Examination through three kinds of questions:
 - Firstly, One out of Three Essay type questions carrying 5 marks should be given.
 - Second, five out of seven short answer questions should be set carrying. 5x2=10 marks with weightage and
 - Third, ten objective type questions should be framed carrying 10x1/2-5 marks with weightage comprising multiple choice answers, fill in the blank questions, matching answers questions, comprehension etc...
 - The duration of examination is 1 Hour per paper for a total of 20 Marks.
- 18. Mid II examination is to be conducted after the completion of syllabus choosing two kinds of question, as explained above for a total of 15 Marks.
- Two mid-term examinations as explained above should be conducted, 1 Mid after completion of 50 % syllabus and II Mid after completion of total Syllabus with 35 marks for Mid Exam (Mid-1 for 20 Marks and Mid-2 for 15 Marks).

For Assignment, Seminar/Quiz/Field trip/ Project work and Clean, Green and Attendance etc., for the three components, the marks to be allotted once in a semester before conduct of II Mid Examinations.

The marks obtained by a student for 50 marks (Total of two Mid exams for 35. Assignments 5, Classroom Activities 5, Clean, Green and Attendance 5) is to be scaled down to 25 and this should be treated as the CIA score of the student in that subject.

In case of Autonomous colleges whatever the weightage of internal assessment is fixed, it should be scaled down accordingly.

- 20. Blended mode of internal assessment should be followed. At least one-mid should be conducted through online and records of every student should be documented for reference.
- 21. All the staff members should maintain records/registers properly in the prescribed format. The details of the marks secured by the student subject-wise and component-wise should be uploaded by each faculty member in the SEMS App (Students Evaluation Management System) on real time basis without fail.

- 22. The Principals should see that, 04 types of records are to be maintained in the college which are to be submitted during inspection.
 - Student-wise and Semester-wise CIA Record is to be maintained by the concerned faculty member as per STUDENT EVALUATION REPORT (Proforma Enclosed)
 - (ii) Subject-wise and Semester-wise CIA Record is to be maintained by the concerned In-charge of the department of all the students of the subject as per STUDENT EVALUATION REPORT prepared by concerned faculty
 - (iii) Program-wise and Semester-wise consolidated CIA Records of all students of the college are to be maintained by the Principal of the College/Examination i/c. Similar Registers are to be maintained for Life Skills, Skill Development Courses etc., as per STUDENT EVALUATION REPORT (CONSOLIDATED) (Proforma Enclosed)
 - (iv) Semester wise PROGRESS REPORT generated through SEMS (Students Evaluation Management System) App
