The program outcomes and program specific outcomes are assessed but needs to be improved using robust methods like Bloom's taxonomy. There are 4 guest faculties with one contract teacher. The NSS unit organized a residential seven day camp in the adopted village to address issues on hygiene, tree plantation and water conservation. During the pandemic, the college students created awareness among the local communities. Addressing a few social issues on gender disparity, sanitation and water harvesting would help the local communities as this is a drought-prone backward region. During the last five years around 250 students participated in various extension activities. Staff members are to be encouraged to deliver academic lectures in different sponsored events conducted in other higher educational institutions. The college should develop an Incubation Centre for creation and transfer of knowledge. Four teachers have completed Ph.D. This region has granite mining industry.
