

# GOVERNMENT DEGREE COLLEGE-KANIGIRI

## *DEPARTMENT OF COMMERCE*

### **Strengths and Achievements**

---

## **Building Bright Futures**

Imagine a classroom that feels like a stepping stone to the real world. The Department of Commerce is more than just a place to read textbooks; it is a space where students grow into confident professionals. We are proud to create a supportive environment where a student's ambition turns into real-life success.

### **★ Our Main Strengths: What Makes Us Great**

- **A Caring and United Teaching Team:** The heart of our department is our teachers. Through the teamwork of our faculty—including Dr. N.Subramanyam, Sri A.V. Sai Brahmam, [Sri.Ch.Narasimhulu](#) , Dr.A.Balakrishna and Smt. D. Jaya Kumari—we provide strong guidance and support to help every student shine.
- **Highly Organized and Prepared:** We take pride in running a smooth and organized department. We are always ready for academic audits because we believe in keeping clear records and doing high-quality work every single day.
- **Teaching Skills for Today's World:** We look past the blackboard. We focus on teaching our students modern, practical skills so that when they graduate, they have exactly what employers are looking for.
- **A Strong Support Family:** We believe education is a team effort. By regularly holding Parent-Teacher meetings, we make sure families are involved in cheering on their students' progress.

## **Our Proud Achievements: Turning Ideas into Action**

- **Learning New Technologies:** Imagine commerce students exploring the skies! We successfully ran a special 5-day Drone Technology Training program. This exciting project showed our students new tools and fresh career ideas.
- **Getting Students Job-Ready:** We bring the business world to our college. By starting practical Tally courses and taking our students to the Job Mela in Ongole, we actively connect them with real job opportunities.
- **Succeeding Together:** Under the strong leadership of our Principal, Dr. J. Usha Rani, our department has smoothly handled major college tasks, including successfully completing our important academic audits.
- **Welcoming New Minds:** We are always working to grow our college family. By visiting places like Govt. Junior College to talk to new students, we are opening the doors to a great college education for the next generation.
